CONTENTS

Vol. 14 No. 1 (1992)

H. K. Pathak and A. R. Maity	A note on common fixed points in 2-metric spaces	1
R. P. Dubey	A generalization of a fixed point theorem of knan and Imdan	5
T. K. Das and P. R. Sengupta	Effect of damping on the torsional vibration of a non-homogeneous first order visco-elastic circular cylinder including strain rate and stress rate	8
Ku. P. Gadkari	Laser driven parametric instabillties in materials with strain dependent dielectric constants	19
S. K. Raizada	On a two-variable analogue of Gagenbauer polynomials	29
S. R. Kulkarni and U. H. Naik	Integral operators of some univalent functions	39
R, K. Saxena and Jeta Ram	Some results of generalized hypergeometric functions with applications	53
Chhaya Sharma and C. L. Parihar	Integral representations of euler's type for hypergeometric functions of four variables	60
Sushil Sharma and S. L. Patel	Approximation of a function by laplace series	70
S. C. Gupta and B. M. Agrawal	Finite summation (i)	80
R. N. Jain	Sum of a special ${}_2F_1$	86

CONTENTS

Vol. 14, No. 2 (1992)

S. C. Gupta and B. M. Agrawal	Finite summation II	**89**
H. K. Pathak	Weak commuting mappings and fixed point ...	**94**
B. P. Reddy	On characterization of finite cosine Hankel transforms of distributions	**99**
Dolly Saha	Forced thickness vibration of a rotating thermopiezoelctric layer of monoclinic symmetry with thermal relaxations	**105**
Ramprasad Paul and P. Bhattacharya	Quasi-pre-continuous functions	**115**
A. P. Verma, R. S. Naoum and A. K. Rajput	On instabilities in displacement processes through porous medium with magnetic fluid	**127**
Ku P. Gadkari	Modulation instabilities in magnetoactive materials with strain dependent dielectric constants	135
P. V. Koparde and B. B. Waghmode	Fixed point theorem for a pair of non-commuting mappings in Hilbert space	146
U. C. De	Semi-decomposable generalized 2-recurrent and 2-Ricci recurrent Riemannian spaces.....	152
S. D. Bajpai	Some expansion formulae for fox's *H*-function of two variables involving Bessel polynomials	160
Harold Exton	A new generating function for a class of hypergeometric polynomials	170
A. K. Das and N. C. Mazumdar	On the order of a class of integral functions of several complex variables	176
Nab K. Bej and A. K. Mukhopadhyay	Effect of non-homogeneity on an elasto plastic rotating circular cylindrical shell	181
C. L. Parihar and Jyotsna Joshi	Sum of a double hypergeometric series	190
